

# OJO JEREMIAH OSARETIN

Lagos, Nigeria  
(+234) 9034706683  
ojojeremiah249@gmail.com

## Summary

---

Versatile professional with expertise in full-stack web development, scientific computing with Python, and mechatronics engineering. Skilled in designing and building web applications (HTML, CSS, JavaScript, Python) and proficient in scientific computing using Python. I am experienced in mechatronics, including embedded systems, robotics, and automation, and I have a strong foundation in problem-solving across software and hardware domains.

## Education

---

Software Engineering, Pan Atlantic University, Lagos, Nigeria.	September 2025 -inview
Mechatronics Engineering, Institute for Industrial Technology, Ogun, Nigeria.	May 2024 - Dec 2024..
Mechatronics Engineering, Yaba College of Technology, Lagos, Nigeria.	September 2021 -2024
Clemcy College, Lagos, Nigeria.	2020

## Projects

---

PAU 2025 Hackathon - [MarketPulse](#)

Engineering Learning Platform - [EngiGrow](#).

## Professional Certifications

---

Full stack web developer, Udemy. - in view

Scientific computing with Python, Free code camp. June 2023.

## Skills

---

### Technical Skills:

Tools: Python, JavaScript, Html, Css, AutoCad, PLC.

Methods: Data Analysis, Web Development, Programming, Coding, TroubleShooting.

### Soft Skills:

Language: English, Chinese.

Communication: Verbal and written communication skills. Other skills include proofreading, copywriting, and critical thinking.

## Experience

---

Business Day Media House

**Web Developer, Intern**

October 19th 2023 - February 19th 2024

- Designed and updated web pages to promote upcoming events, enhancing user engagement and accessibility.
- Analyzed user interaction data across global markets, driving data-informed improvements to web performance and content.
- Collaborated with cross-functional teams to implement visually appealing and functional web solutions aligned with organizational goals.
- Gained hands-on experience with modern web development tools and best practices.
- Developed comprehensive speaker profiles for upcoming events, ensuring consistency and professionalism in promotional materials.
- Coordinated and edited the company's annual calendar, streamlining planning and communication across departments.

Road Truckers Nigeria Limited

**Automobile Engineering, Intern**

March 2022 - July 2022.

- Conducted routine maintenance and servicing on a variety of vehicles, ensuring optimal performance.
- Managed and monitored the inventory of tools and equipment in the workshop to maintain operational efficiency.
- Drafted requisition letters for tools and materials, facilitating timely procurement to support workshop activities.
- Maintained accurate records of vehicles serviced, improving tracking and workflow management.

**Awards**

---

- Award of Excellence 2020/2021 — Mechatronics Engineering Technology Association (METSA)
- Headboy, primary and secondary school - Clemcy College
- Neatest room award – Debiruss College
- Assistant Hostel Prefect – Debiruss College
